Subject: Microsoft Settlement

Sirs:

Please get this suit settled as agreed. Deflect the other law suits. I have no axe to grind. I am a personal user of Microsoft products. I feel that Microsoft has been unfairly crippled in its effort to be the best. This will raise prices that I will have to pay for computer products. Let's forge ahead and not restrict genuine free enterprise. We need strong economic engines to ring us out of this recession.

Sincerely,

Andrew M. Rutherford
